ReNYtel, 12/17/66, entitled "CPUSA-ORGANIZATION, IS-C; CINAL" reflecting that NORMAN FREED, Canadian CP Functionary, was scheduled to go to NYC on 12/14/66, to confer with CPUSA Functionaries, the establishment of a joint CPUSA-Canadian leadership school.

On 12/15/66, there was received at a NYC drop a letter from NORMAN FREED, for transmittal to the CPUSA, the content of which is as follows:

"Dec. 12, 1966

"Dear Friends:

"I regret that I am unable to visit you as I had planned. The matter to be determined is for you to decide as to your desire to participate in a joint affair for two months during March and April. We intend to make it public that a 'School for Social Science' will take place in Toronto during the above period having regard for the lessons to be drawn from the experience of the last school.

ReNYairtel, 12/15/66, captioned above, reporting the content of the letter sent by Canadian CP functionary NORMAN FREED through the CPUSA concerning a proposed joint CPUSA-Canadian CP leadership school.

On 12/16/66, there was received at a NYC drop a letter from WILLIAM KASHTAN, General Secretary of the Canadian CP, for transmittal to GUS HALL; the content of the said letter is as follows:

"December 13, 1966

"Dear Herbert:

"Finally returned home after a tour through the country. Your friend G.M. undoubtedly informed you of the round table exchange which may have some value in stimulating further thought on some complicated problems many of the fraternal movements are confronted with.

"We are presently preparing for a family get together scheduled to take place around the middle of January and will at that time also discuss the prospects of an international conference. Opinion seems to be divided on this matter but the need for it is becoming increasingly obvious.

"On questions closer to home. Could you give us your views on the apparent conflict between the Meany position and others over foreign policy and perhaps other questions. The press here speaks of an organizational division. Is this actually in the cards?

Is it possible for him to come to Canada following his visit? When he was here last he made quite an impact and a follow up would be quite useful. Could you advise us?

"Thirdly, on the question of a repeat of last year's joint educational project. Do you see prospects of it being carried through again taking into account the events of last and our own view that it should be public (only in the sense that it will not be denied)?

"I understand that our director was invited to discuss this with you. I think myself the politics of the problem should be considered first and details resolved later. We have a tentative agreement here to hold it in March, April.

"Finally, I imagine you have many impressions from your recent tour abroad and if there are questions of mutual concern involved, would appreciate hearing from you. Will be more or less settled here until after our family gathering and if anything can be arranged, would welcome it.

"In the meantime all the best,

"As ever,
"B.

"P.S. Received your note of Dec. 1st."

"G.M." mentioned in paragraph 1 above is undoubtedly a reference to GEORGE MEYER, CPUSA functionary, who attended recently a conference at the World Marxist Review in Prague, said conference having concerned imperialism in Western Europe.

"Family get together" in paragraph 2 is a reference to a Canadian CP National Committee meeting scheduled for the middle of January, 1967.

"The "French Marxist Scholar" mentioned in paragraph 4 is very likely a reference to ROGER GARAUDY, a member of the French CP Politburo, who is currently on a lecture tour in the US, the subject matter of his lectures being Catholicism and Marxism. (It is believed that he was scheduled to visit Chicago before returning to France.)

In paragraph 5, it would seem that KASHTAN is making reference to the fact that the joint CPUSA Canadian CP leadership school held last year had resulted in adverse publicity.

In paragraph 6 "our director" is a reference to NORMAN FREED who had been scheduled to discuss the aforesaid joint school with CPUSA functionaries.

In paragraph 1 of referenced airtel the ^{AN} said airtel was referred to incorrectly as dated ~~of~~ 12/17/66 instead of 12/7/66.

In the absence of NY 694-S*, there is enclosed herewith the original of the above-mentioned letter to be transmitted by the Chicago Office to CG 5824-S*.

The Central Committee of the Brazilian Communist Party
and Unity of the Communist Movement

On the subject of the world communist movement and of the activities of the leaders of the Chinese Communist Party to drive the wedge of division into the world communist movement, the Central Committee of our Party has just made public the following note:

"The Brazilian Communist Party which has actively participated in the efforts to bring about greater cohesion in the world communist movement wishes to express its concern over what is happening in China where a systematic anti-Soviet campaign is being carried on and feels that it is its duty to reaffirm its solidarity with the glorious Communist Party of the Soviet Union, which is the spearhead of the international communist movement and has given so many good accounts of itself.

"The XI Plenary Meeting of the Central Committee of the Communist Party of China approved a resolution on a so-called 'great proletarian cultural revolution,' which it used as a pretext to reaffirm a political line which opposes the Marxist-Leninist line worked out by the Communist and Workers' Parties on the occasion of the two World Conferences held in Moscow in 1957 and 1960. In addition to slanderous attacks on the Communist Party of the Soviet Union and on the Soviet Union itself, the resolutions approved at the Plenary Meeting of the Central Committee of the Communist Party of China are to be interpreted, in essence, that the leaders of the Communist Party of China reject the propositions that were made by the Communist Party of the Soviet Union and other Communist Parties of socialist countries for the implementation of joint actions in the struggle against American imperialism and support for the Vietnamese people.

"At a time when the imperialist enemy is exploiting the differences within the world communist movement to intensify its aggression against the heroic people of Vietnam, to utter new threats against Socialist Cuba and to try to contain, by the might of its arms, the struggles that many nations wage for national liberation, against colonialism and neo-colonialism, the Brazilian communists will do everything in their power, in the vanguard of democratic and patriotic

forces, to intensify their struggle against the Castelo Branco dictatorship - a servant of American imperialism - and will spare no efforts to promote solidarity of the masses with the gallant South Vietnamese people and the Democratic Republic of Vietnam.

"In its conviction that the struggle against imperialism and all reactionary forces demands, more than ever, unity on the part of all revolutionary and liberation detachments, the Brazilian communists will take part in all initiatives and efforts of Brother Parties to foster cohesion and unity within the world communist movement on the basis of Marxism-Leninism and the general line approved by the World Conferences of 1957 and 1960. Much stronger than any force which may separate them, the Communist Parties are lions which unite the masses into the struggle for the preservation of world peace, against imperialism - enemy of all nations - for social progress and world victory of communism."

October 1966 .

The Central Committee of the Brazilian
Communist Party

The Kubitschek-Lacerda Meeting

Following the negotiations for a "Wide Front," a meeting took place between Kubitschek and Lacerda in Lisbon, Portugal, and a communique was issued.

The document which seals the union of two personalities calls for the establishment of a political party, the Popular Party, whose purpose is the struggle for liberty, economic development of the country and the aspirations of the people.

This event had profound repercussions and Lacerda is threatened with the loss of his political rights.

Subsequently, it was learned that the Popular Party, whose establishment is forthcoming, will be a party of center-left-of-center tendencies.

Under the present circumstances, as the Political Resolution of the Central Committee points out, all agreements, alliances and organizations aimed at waging the struggle for democracy are positive developments. It remains to be seen in practice whether the new party is in a position to make a contribution to the struggle which our people are carrying on against dictatorship and for their well-being.

A Great Loss for Our Party and Our People

Joining in the mourning by which our Party and our people are so deeply affected, our Bulletin pays a sorrowful and fraternal tribute to the memory of our beloved comrade Pedro Motta Lima, who tragically perished in the crash of a Bulgarian airplane at Bratislava while attending to a task on behalf of our Central Committee.

We express our fraternal condolences to the Communist Parties of Argentina, Chile and Honduras, which are mourning the deaths of Jose Gonzales, Jorge Calixto Ramires, Rogelio Ferrari and Ramon Amalla Amadei.

The demises of these communist leaders deeply aggrieved the workers movement and the people of Latin America.

The deaths of Pedro Motta Lima, Rogelio Ferrari and Ramon Amalla Amadei constitute very great losses to the literatures and journalistic endeavors of their respective countries. The three of them were living in Prague, in the same house, working in the same place, as editors of the "International Review of the Problems of Peace and Socialism," and perished together in the discharge of their duties. They gave their lives to the cause for which they were combating with ardor and to which they had devoted all their activities: the cause of Peace and Socialism, which are the greatest aspirations of their nations and of the entire world.

We will be grateful to our Brother Parties and their democratic organizations for (?) reprinting (?), in their press and publications, the contents of our Bulletin.

A Note by the Executive Commission on the Political Situation

1. The Brazilian situation is characterized by a sharpening of social contradictions. Because of it, manifestations of opposition to the dictatorial government are increasing.

The more isolated ~~the dictatorship becomes,~~ the more it resorts to arbitrary actions and violence which bring forth its military, reactionary and pro-imperialist nature and the anti-popular and anti-national contents of its policies. Under the circumstances, the dictatorship is unable to live up to its democratic and constitutional mask with which it tried to deceive the nation.

2. The dictatorship, through its policies and measures, is trying to erect a Fascist-like regime as the law of the land. It is carrying on new attempts on the rights of the workers by repealing, for example, the right of maritime workers to unionize themselves. In a constantly brutal fashion, it keeps up its repression of the student movements. It continues to cancel parliamentary mandates, to deprive the citizens of their political rights, to impose major restrictions on the electoral process, thereby gradually reducing the possibilities of choice for the people of candidates worthy of their confidence. It persists in its economic and financial policies which keep our people in starvation and surrender our economic resources to American monopolies. Juracy Magalhaes has been traveling to various countries of Latin America in his shameful capacity as the traveling salesman of American imperialism, trying to sell the "Inter-American Peace Force," plotting the invasion of Cuba and claiming that Brazil is ready and willing to send troops to participate in the criminal war against the Vietnamese people. On the other hand, the ruling military group, by depriving the people of their right to elect the President of the Republic, strives to maintain itself in power with the appointment of Costa e Silva to replace the present dictator and tries to legalize, by a railroaded constitution, the Fascist-like regime which it has imposed upon the nation.

However, the fact that the dictatorship is continuing its offensive does not mean that it is succeeding in strengthening its position. The policies which it enacts are in conflict with national interests. It is harming the workers and the peasants, the intellectuals and the students, the officials and other segments of the petty bourgeoisie as well as the national bourgeoisie and other sectors of the ruling classes. This is the reason why unrest is growing. This is the reason why outward manifestations of resistance expand. A portion of the population which in April 1964

remained indifferent to the coup d'etat is taking a position today which is against the dictatorship. The progressive wing of the Catholic clergy is participating at an increasing rate in the protest movement. This situation is reflected by the positions taken by personalities and groups of people whose opposition to the Castelo Branco Government is expanding and intensifying.

The dictatorship has been trying since its inception to deceive our people and world public opinion by hiding behind a democratic facade. Nevertheless, as it pursues its policies and as it encounters more and more resistance, it is no longer able to save appearances and is forced to take off its mask and show its true face. It even had to close down the National Congress, whose reactionary composition had been further mutilated under the coercive process and had become one of the principal instruments of application of the policies of dictatorship. All of this confirms the analysis which had been made by the communists: The process of isolation of the dictatorship is gathering momentum. The contradictions between the nation and the dictatorship grow deeper and deeper and political instability increases at a most rapid rate.

3. Faced with this situation and with the change of the political conjuncture in a direction favorable to the forces which oppose the dictatorship, certain sectors of the ruling classes try for a conciliatory way out by means of coups d'etat and other military insurrections. They fear that as a result of the development of the mass struggle, the popular forces may win a decisive influence on the events. In order to solve their problems, they have visions of summit conferences which, by means of a simple replacement of men in the power seats, may create the illusion that the dictatorship has been eliminated and enable them to continue to promote their interests to the detriment of the interests of the workers and of the people.

At the present time, one of the so-called "solutions" which are being proclaimed is the inauguration, ahead of time, of Costa e Silva as the President of the Republic, claiming that the new dictator can open the road to a pacification and democratization of the country. It is obvious, however, that the replacement of Castelo Branco by another coup marshal, beholden to the dictatorship and its policies, has no other objective than that of deceiving the people and trying to extend the present regime of arbitrary rule, violence, poverty and hunger.

4. The steady drop in social and political support of the dictatorship improves the chances of those who combat it and will ultimately defeat it. The action initiatives against the dictatorship express the sentiment which becomes more general from day to day and reflects the interests of wide strata of the population. These initiatives will soon be able to depend on total support and the solidarity of the masses. The isolation of the dictatorship does not mean, however, that it will disappear without putting up a struggle. We will not succeed in defeating the dictatorship by the action of isolated groups, no matter how heroic they are, or by putting out appeals for its destruction. What is required is a unity of action on the part of all the forces which are opposed to the dictatorship.

The principal activity of the communists must be for the guidance of the struggle of the classes, which must be designed to unite and mobilize them in defense of their own rights and their demands against the dictatorship, for democratic freedoms, for solidarity with those who are politically persecuted, against the sale of Brazil to American monopolies, against the "Inter-American Peace Force," against the attempts which are currently being made to drag our country into the dirty war in Vietnam.

It is also necessary to step up the struggle against the new Fascist-like constitution of the dictatorship, with or without the connivance of our congress, is trying to hoist on us. This is also true of our struggle against laws "on the press" and "on security" with which the nation is threatened.

The holding of the Congress of the National Student Union, which revived an old and glorious tradition of struggle for democracy and national independence, and the other demonstrations which were staged in the main cities of the country by successfully braving the repression of the police, constituted various manifestations of a united struggle against the dictatorship and have had national repercussions arousing sympathetic reactions on the part of the population at large.

The activities of a group of Catholic clergymen, who are becoming more and more numerous, in opposing the dictatorship and the position of the Bishops in the North East, led by the Reverend Helder Camara, point to the growing opposition to the policies of the dictatorship and to the orientation of the most advanced wing of the church. In this fashion, great possibilities are opening up for a united action in conjunction with Catholic leaders and segments of the population under their influence.

The current negotiations for the organization of a so-called "wide front," which are the result of a "rapprochement" between Carlos Lacerda and ex-Presidents Kubitschek and Goulart are indicative of the vastness of the movement of the forces which oppose the dictatorship. This is, without a doubt, a positive political development. Nevertheless, the future of this initiative will depend upon the contribution that it will be able to make to the struggle against the dictatorship for democratic freedoms and the true interests of the Brazilian people.

The communists insist on the need for the political negotiations which are being held among the forces that oppose their struggle against the dictatorship to result in the adoption of a united platform containing the common objectives. In the Political Resolution which was approved in late June of this year by the Central Committee of our Party, we have presented as the foundation for an understanding of this matter the questions which, in our opinion, should be included in the platform.

5. Under the present circumstances of our country, it is obvious that the electoral process will not suffice to unseat the dictatorship through the election of mere deputies and senators. However, despite the restrictions that are imposed on the right to vote, the participation in direct elections on November 15 will make it possible to intensify the protests and the struggles against the dictatorship, to unmask its policies and to denounce its crimes. It will also be possible to achieve closer cooperation and unity among the forces which combat the dictatorship.

In every State and Commune, the communists will denounce the existant restrictions and, at the same time, will indicate to the masses those candidates who are worthy of the vote of the people and who, after their election, will know how to turn their legislative seats into outposts of the struggle against the dictatorship. Nonetheless, in the face of the latest cancellations of mandates, of the suppression of political rights and the "en masse" rejection of candidates by the Judges presiding over the elections, who are openly guided by the SNE (National Intelligence Service) and by the DOPS (political police) the lists of candidates will be filled with names of reactionaries unworthy of the popular vote. Wherever this happens, the communists will call for a blank ballot as a form of protest and denunciation of the farce into which the dictatorship has turned the elections.

6. The dictatorship is a servant of American imperialism not only as far as our nation is concerned, but also with respect to other nations. In international relations, it is being used as an instrument of the policies of aggression and colonial oppression and war provocation of the United States. It seeks to step up its support for the war in Vietnam by sending troops. It strives to organize an "Inter-American Peace Force," whose purpose is to intervene militarily, under Washington's orders, against the nations of Latin America which struggle for independence and liberty. It supports an armed aggression against Cuba and the criminal action of the Salazar dictatorship against the African peoples of Angola and Mozambique. In order to defend our national interests and in the struggle against the common enemy - American imperialism - it is indispensable to denounce and combat the foreign policies of the dictatorship. Solidarity with the Vietnamese people, who, because of their heroic resistance, are in the vanguard of the nations that struggle for national liberation and social progress becomes a matter of particular importance.

The international situation continues to evolve in a direction which is favorable to the forces of peace, democracy, progress and socialism. In our country, the coup clique which seized power is becoming more and more isolated. Let us intensify the struggle for the defense of democratic freedoms, in the interest of the rights of the working and popular masses, against poverty and hunger and for the safeguard of national sovereignty. Unity of action on the part of the forces which oppose the dictatorship will win and open up the road that leads to a future of liberty and well being for our people.

SAM GERBER, LOS ANGELES, CALIFORNIA, AN
INDIVIDUAL DESIRING TO GO TO SOVIET UNION
TO LECTURE ON DRY CLEANING PROCESSES

Following the conclusion of the National Committee, Communist Party, USA (CP, USA), meeting held in New York City, December 3-7, 1956, BEN DOBBS of the CP of Southern California turned over to GUS HALL, General Secretary, CP, USA, the following communication:

"December 8, 1956

"To: Gus Hall"

"From: Ben Dobbs

"In reference to our conversation this date in re SAM GERBER, 3712 West Jefferson Blvd., Los Angeles, Calif. 90016.

"He is interested at his own expense to give lectures, demonstrations or any other means for the development of dry-cleaning skills to people in this industry. He is known in the Soviet Union by virtue of having built a plant in 1935 for dry-cleaning and also his correspondence with a comrade formerly connected with that industry by the name of Batueva. He simply wants to be of some use and it is up to them if they can use him.

"He was a member many years ago and while he has disagreements, is a staunch friend of the movement and of socialism. He at present conducts a school in Los Angeles on dry-cleaning skills and is considered one of the best technicians in the country. He is a graduate of the National Institute of Dry Cleaning and has kept up with all the modern methods and literature."

Subsequently, GUS HALL made the above document available and indicated that he desired that the essence thereof be transmitted to the Russians for their consideration and reaction. HALL made no specific statements about his recommendations concerning the possibility of GERBER traveling.

For the information of the Bureau, recent discussions with CG 5824-S* have indicated a possibility that within the very near future CG 5824-S* may have to depart on another Solo Mission. Although his physical condition is such that he is extremely loath to subject himself to such an arduous undertaking, nevertheless, unless circumstances change, it is likely that GUS HALL, General Secretary, Communist Party, USA (CP, USA), will insist that our Solo informant travel to the USSR for consultations with the leadership of the Communist Party of the Soviet Union (CPSU) no later than the first week in 1/67.

There are a number of reasons which dictate this expectation on the part of CG 5824-S*. As you know, during the course of past Solo Missions, during the course of which CG 5824-S* has presented the CP, USA request for its annual subsidy by the CPSU, our informant has returned to this country with a firm commitment as to the size of this subsidy. The Bureau is aware that on the occasion of the latest Solo Mission CG 5824-S* received no such firm commitment on the amount of subsidy owing to the fact that he left the USSR prior to the time of the approval of the budget by the Central Committee, CPSU, and the Supreme Soviet of the USSR. It was understood that this information would be relayed to the CP, USA by means of the Solo apparatus.

CG 134-46 Sub B

As of this date, the expected information relative to the subsidy has not been received through the Solo apparatus. According to CG 5824-S*, it is the opinion of both the informant and HALL that it would not be either political or wise to make a blunt inquiry through the apparatus. From his discussions with HALL, the informant believes that if no information is forthcoming by this means by the first week of 1/67, HALL will insist that CG 5824-S* go to Moscow, USSR, to obtain the answer.

Another matter which has in the past been handled prior to this time is the question of the number of CP, USA guests who will be received by the CPSU during the coming year. Again, this matter was not settled before CG 5824-S* left Moscow on the latest Solo Mission. This question of quotas is particularly important during 1967 since this is the 50th Anniversary of the USSR and the number and type of delegations to be invited to the USSR is a matter of international status.

A circumstance which complicates the situation even further is the fact that JAMES JACKSON, recently designated Chairman of the International Affairs Commission, is traveling to France during the first part of 1/67 to attend the Congress of the CP of France. It is in keeping with JACKSON's character that he may very well find some excuse for traveling further to the USSR once the French CP Congress is completed. With his new title, JACKSON might throw his weight around and involve himself in some of the secret matters heretofore the sole province of our Solo informants, such as financial arrangements, CP, USA visitors quota, etc.

In addition to the above matters, another item hanging fire at the moment is the question of an assistant for NY 694-S*. The CPSU has given its approval in principle and has requested to see NY 694-S* in the near future concerning this matter. Since NY 694-S* is in no condition to subject himself to such a trip, CG 5824-S* must delay this decision in some fashion. Therefore, during the course of this trip he would place the blame for the delay on GUS HALL by stating that although HALL has approved the use of NY 4309-S*, he has not yet discussed this with NY 4309-S*. The CPSU would be told that when HALL discusses this matter with NY 4309-S* and gives his final approval, then the CPSU will be notified and arrangements made for them to see NY 694-S* and NY 4309-S*. In this way, the New York Solo informant's trip might be delayed until April or May, 1967, at which time he may be sufficiently recovered to undertake a Solo Mission.

CG 134-46 Sub B

In light of the urgency of each of the above matters, CG 5824-S* stated that the possibility of another Solo Mission is quite imminent. HALL expects CG 5824-S* in New York City prior to the first of the year for discussions and, therefore, CG 5824-S* is departing Chicago for New York City on the evening of 12/29/66. The informant noted that dependent upon the decisions arrived at by HALL, the informant must be prepared to travel on the next Solo Mission by 1/5 or 1/6/67. Therefore, he is leaving Chicago prepared to depart on a Solo Mission without returning to Chicago. He will not be accompanied by CG 6653-S in the event this mission materializes. Since prior arrangements are necessary, NY 694-S* has indicated he will return to New York City from Miami, Fla., on the afternoon of 1/2/66 so that the necessary messages can be prepared and transmitted to the CPSU and the CP of Czechoslovakia.

The above is being submitted so that the Bureau will be aware of the circumstances dictating this course of action and so that the Bureau will be aware that another Solo Mission is imminent.

"Dear Michael:

"The wife and I were very happy to get your greetings. This year certainly rushed by with considerable speed and now a new one awaits us which is likely to be a rather lively one. We have finally begun to get a few small breaks on the municipal level and needless to say, it has been good for morale. Now we need to translate it into growth.

On December 29, 1966, a source, who has furnished reliable information in the past, furnished the following information concerning the placement of functionaries of the International Department, Central Committee, Communist Party of the Soviet Union (CPSU), in Soviet agencies abroad in order to carry out Party liaison more effectively:

This source stated that he has no specific knowledge of a change in the policies of the International Department, Central Committee, CPSU, and the Foreign Service of the Government of the USSR during the period around 1963 specifically related to the above subject. However, the source advised it is a well-established fact that in every Soviet establishment abroad there is always someone specifically assigned to be in charge of the work of the CPSU and who acts in the name of the CPSU in that establishment. This is true even in such organizations as the headquarters of the "World Marxist Review," located in Prague, Czechoslovakia, where the CPSU has a permanent representative who works full time as a Party Secretary, consulting with the Editor-in-Chief of the "World Marxist Review" to insure that Party directives are carried out.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

From time to time employees of the International Department, Central Committee, CPSU, are sent abroad for specific purposes, such as attendance at CP Congresses or to hold consultations with various international communist leaders, etc., but the source knows of no practice of assigning functionaries from the International Department to remain in diplomatic missions abroad for an indefinite period in some assignment. As examples of this periodic practice, the source noted specifically the mission of Yuri Ivanov of the Israeli Section, International Department, Central Committee, CPSU, in May, 1965, when he traveled to Israel to personally investigate for the CPSU the split within the CP of Israel; and the mission of Valentine Mikhaylov of the British Commonwealth Section of the International Department, Central Committee, CPSU, to New Zealand in July, 1964, where he personally investigated for the CPSU the split in the CP of New Zealand over the issue of Sino-Soviet differences.

In general, the source stated the CPSU does not depend completely upon the diplomatic establishment to carry out its directives. As far as it is known to the source, the CPSU generally runs the International Department and the Foreign Service through the Political Bureau of the Central Committee, CPSU.

Relative to specific connections between the International Department, Central Committee, CPSU, and the Foreign Service, the source advised that the following situation obtains among the younger cadre but is not applicable among the "old timers" in the International Department and the Foreign Service. Many of the younger cadre in the International Department, Central Committee, CPSU, have been trained at the USSR Institute of Foreign Relations. Following service in the International Department, Central Committee, CPSU, some of these cadre have then been sent on to a permanent assignment in the Foreign Service of the USSR Government. It is the understanding of the source that such individuals are then considered Foreign Service employees with no direct connection thereafter with the International Department, Central Committee, CPSU. Their period of service in the International Department, Central Committee, CPSU, is considered part of their training prior to their ultimate assignment in the Foreign Service.

~~SECRET~~

INTERNATIONAL DEPARTMENT OF THE CENTRAL

~~SECRET~~

The source emphasized that this is true only of younger cadre in lower positions and does not apply to leading functionaries. By contrast, the situation is just the opposite in the Central Committee of the CP of Czechoslovakia and the Central Committee of the CP of Bulgaria. In these latter two Parties it is the rule for the International Department of the Central Committee of the CP to furnish the cadre for the Foreign Service. The source stated he knew of numerous cases in which individuals holding top jobs in the International Department of these Parties were subsequently moved to the Foreign Service where they have held leading positions, including that of Ambassador.

Relative to the type of subjects and courses taught at this school, this source merely reiterated information previously set forth in the above-mentioned correspondence dated November 2, 1966. The source stated that students are

taught in laboratories which resemble factories, the complete manufacture and repair of engines and motors, radio and television stations, etc. This source advised that students at this school are fully trained in the techniques of terrorism, including use of firearms, explosives, and the like. In addition, techniques of agitation, propaganda, and fomenting revolution are taught.

Relative to the security officer at this school, this source was unable at this time to recall his name. He is a security officer who works with the Central Committee of the Communist Party of the Soviet Union and is in charge of the security of this particular school. He resembles an Armenian whose description generally conforms to the description set forth in the Central Intelligence Agency letter to this Bureau dated December 6, 1966.

This source was unable to furnish any additional information concerning this school with reference to such matters as to the manner in which students are selected, etc.

This is to advise you that CG 5824-S* is currently making preparations for travel to the Soviet Union on Solo Mission 22.

You will recall that CG 5824-S* returned to the United States from Solo Mission 21 in October, 1966, after spending two months touring communist countries with Gus Hall, General Secretary, Communist Party, USA. Upon his return from Solo Mission 21, CG 5824-S* provided us with a wealth of intelligence data, including intimate details of Gus Hall's discussions with various foreign communist party leaders.

Although his physical condition is such that he is extremely loath to subject himself to such an arduous undertaking, CG 5824-S*, acting on the instructions of Gus Hall, is preparing for travel to the Soviet Union where he will hold discussions with the leadership of the Communist Party of the Soviet Union.

CG 5824-S* has advised that the purposes of Solo Mission 22 will be as follows: (1) to discuss the amount of the financial subsidy that will be furnished to the Communist Party, USA, during 1967; (2) to discuss the number of Communist Party, USA, guests who will be received by the Soviets during 1967, which is the 50th anniversary of the Soviet Union. In this regard, informant noted that the number and types of delegations to be invited to the Soviet Union is a matter of international status; and (3) to discuss the question of an assistant for NY 694-S* who handled the clandestine communication apparatus between the Communist Party, USA, and the Communist Party of the Soviet Union. In this regard, informant plans to take up with the Soviets the insertion of NY 4309-S* into the Solo Operation to assist NY 694-S*. NY 694-S* was originally scheduled to handle this matter with the Soviets. However, NY 694-S* is currently recuperating from a heart attack and is not in a position to handle this assignment.

Enclosed herewith for the Bureau are three copies and for New York one copy of an informant's statement captioned "COMMUNICATION PREPARED BY HYMAN LUMER, EDUCATIONAL DIRECTOR, COMMUNIST PARTY, USA, AND TRANSMITTED TO THE COMMUNIST PARTY OF CANADA."

On 1/6/67 CG 5824-S* advised SA RICHARD W. HANSEN that on 1/5/67 HYMAN LUMER, Educational Director, Communist Party (CP), USA, had turned over to him a communication which he desired be sent to the CP of Canada. In accordance with LUMER's request, CG 5824-S* prepared a cover note and dispatched LUMER's communication to BILL KASHTAN, General Secretary, CP of Canada. LUMER's communication and CG 5824-S*'s cover note were mailed from New York City on 1/6/67 to J. KLEINSTEIN, 25 Kilbarry Road, Toronto, Ontario, Canada, a mail drop address supplied by the CP of Canada to CG 5824-S*.

The text of CG 5824-S*'s cover note, together with parenthetical comments furnished by the informant, was as follows:

Dear B. (Kashtan, General Secretary,
CP of Canada)

Thanks for your very nice holiday
note (New Year's greetings). All the best
to you and your family.

I am travelling but sorry to say it is
in another direction (to Moscow not Toronto,
Canada) and will be away for some days.

Herb (Gus Hall, General Secretary, CP,
USA) is also away and on the West Coast (San
Francisco). He will be in Chicago from the
(January) 10th - 16th.

The answer to Hy's (Lumer) letter (the
enclosure herewith) can be sent to Lydia (a
Chicago mail drop maintained by CG 5824-S*
which will enable the Bureau to intercept
any response to Lumer's communication). If
it is for Hy, the letter should be marked Hy.
If it is for G. (Gus Hall) the usual
salutation will do.

Once again my warmest regards and say
hello to Norman (Freed, CP of Canada
functionary) for me.

Michael (CG 5824-S*)

The text of the communication prepared by
LUMER and sent as the enclosure to the above note
appears in the enclosed informant's statement.

**COMMUNICATION PREPARED BY HYMAN
LUMER, EDUCATIONAL DIRECTOR,
COMMUNIST PARTY, USA, AND TRANSMITTED
TO THE COMMUNIST PARTY OF CANADA**

During the week of January 1, 1967, Hyman Lumer, Educational Director, Communist Party (CP), USA, prepared for transmission to the CP of Canada, a letter dealing with a possible joint CP, USA Marxist Training School in 1967, similar to the one held during the previous year. The text of the communication prepared by Lumer and transmitted to William Kashtan, General Secretary, CP of Canada, was as follows:

Dear Friends:

I am afraid we cannot participate in the school as it is now planned. For one thing, it is too early and does not allow us enough time to prepare on such short notice. We had considered a later date-- June and July--not only because of the time factor but also because it fits in better with other important events scheduled for that period. But there are also other, more important obstacles to our participation, which to our knowledge have not been removed. Unless we can know more precisely what is meant by the clause in your letter "having due regard to the lessons to be drawn from the last school" as this applies to us, it does not appear feasible to take part.

We propose, therefore, in the absence of direct discussion, to proceed on our own at approximately the time mentioned above. We would suggest, however, that it is possible to modify the dates of both schools so that they overlap at least in part, it would be possible to arrange one week together. In view of the great value of joint study which was shown last year, we think that even this limited arrangement would be well worth while.

100-428091-6003
ENCLOSURE

Please let us know how you feel about this. Meanwhile, it would still be highly desirable to discuss these questions directly if it is at all possible to do so.

Regards,

Hy

January 6, 1967

During the course of several discussions held with GUS HALL, General Secretary, Communist Party (CP), USA, during the early part of the week of January 1, 1967, HALL made it known that he was interested in securing additional purebred Arabian horses from the socialist countries to supplement the one purebred Arabian stallion he had previously received from the Poles. He noted that he had already raised this matter with ISIDORE NEEDLEMAN and NEEDLEMAN is prepared to travel with HALL's brother, TOIVO HALBERG, who lives in Minnesota. Both NEEDLEMAN and HALBERG had participated in the negotiations in January, 1966, which resulted in the securing of the purebred Arabian stallion from the Poles. According to HALL, he now wants his brother and NEEDLEMAN to visit the USSR, Hungary and Poland in their quest for additional horses and efforts should be made to secure possibly one purebred Arabian horse from each country.

HALL ordered that this matter be taken up immediately with the CP of the Soviet Union, the Hungarian Socialist Workers Party and Polish United Workers Party and that these Parties be asked to have visas available for HALBERG and NEEDLEMAN and arrange for discussions in their countries on this matter. HALL stated that while he would not insist that the horses be provided to him as gifts and would be willing to pay for them, he did want it known to all of these Parties that it would be desirable to secure the best possible terms and arrangements for such horses.

While HALL noted that he had specifically discussed the above with NEEDLEMAN, he did not say he had carried out previous discussions on this matter with his brother, TOIVO. However, HALL was in Minnesota during mid November, 1966, and it is possible that he discussed the matter at that time.

In line with HALL's instructions, three

First of all, would you please advise your Embassy or Consulate to grant these comrades visas. Comrade I. Needleman is an attorney and a party person. Comrade T. Halberg is my brother. They visited your country last January.

Comrades Needleman and Halberg are prepared to buy some horses on a business basis. Naturally since these are not personal deals, we hope that you will give them special cooperation and consideration. They have made the necessary financial arrangements and are prepared to pay, as last time, for all purchases agreed on in American dollars.

With warm fraternal greetings,

Comradely yours,

Gus Hall
General Secretary

DESIGNATION OF HYMAN LUMER AS
DELEGATE TO SEVENTH CONGRESS,
SOCIALIST UNITY PARTY OF GERMANY,
AND TEXT OF COMMUNICATION SENT TO
SOCIALIST UNITY PARTY OF GERMANY

The Socialist Unity Party of Germany (SUPG) has transmitted to the Communist Party (CP), USA through the CP of the Soviet Union an invitation to send two fraternal delegates to the forthcoming Seventh Congress of the SUPG scheduled to be held April 17 - 22, 1967, in Berlin. Gus Hall, General Secretary, CP, USA, has now designated Hyman Lumer, Educational Director, CP, USA, to be one of the delegates to the Seventh Congress of the SUPG but Hall has not as yet decided on who to name as his second delegate.

After having been advised by Hall of his selection as a delegate to the Seventh Congress of the SUPG, Lumer prepared a communication which he desired sent to the SUPG. The text of this communication was as follows:

January 4, 1967

Dear Comrades:

During my brief visit last spring it was suggested that I return for a long stay at some future time, to visit different parts of the country and to deliver some lectures. It was agreed that I would let you know when I could arrange to come.

An opportunity now presents itself in connection with your party congress in April, to which I am to be one of the two fraternal delegates from our party. I propose to stay on for at least two weeks after the congress to travel and lecture, and to gather material for a series of articles on the GDR after my return.

I am prepared to lecture on any of the following economic subjects: Effects of the Vietnam War on the U.S. Economy; Poverty in the U.S.; The "New Economic Recent Developments in State Monopoly Capitalism in the U.S. Or I can prepare to speak on other subjects within my competence if you prefer.

Please let me know as early as possible whether these proposals are agreeable to you and if so, what specific things you would want me to do.

Comradely,

Hyman Lumer

The above communication is being hand carried to Moscow, USSR, where it will be turned over to representatives of the Embassy of the German Democratic Republic for transmission to the Central Committee, SUPG.

of a letter dated [redacted]

Enclosed herewith for the Bureau are the original and three copies of a letterhead memorandum captioned, "Institute of The International Workers Movement."

The information set forth in the enclosed letterhead memorandum was orally furnished on December 29, 1966, by CG 5824-S* to SA WALTER A. BOYLE.

The enclosed letterhead memorandum has been classified "~~TOP SECRET~~" since unauthorized disclosure of the information set forth therein could reasonably result in the identification of this source who is furnishing information on the highest levels concerning the international communist movement, and thus adversely affecting the national security.

In order to further protect the identity of this source, the enclosed letterhead memorandum has been shown as being prepared at Washington, D.C.

It is noted that in some cases no direct reply is made to specific questions raised in reCIAlet. In such cases, the informant stated that he has no information responsive to these questions.

INSTITUTE OF THE INTERNATIONAL
WORKERS MOVEMENT

On December 29, 1966, a source, who has furnished reliable information in the past, furnished information concerning the newly-formed Institute of The International Workers Movement of the Communist Party of the Soviet Union (CPSU), which is an extension of this source's comments set forth in this Bureau's communication of November 10, 1966.

This source advised that the new Institute of the International Workers Movement is a creature of the Central Committee of the CPSU which is subordinated to the International Department, Central Committee, CPSU. This institute operates under the cover of being a school related to the USSR Academy of Sciences with A. M. Rumyantsev as one of the leading members of the institute and with Timur Timofeev in charge of the institute.

This source furnished the following explanation of his previous statement to the effect that this new special institute would be viewed by the Central Committee of the CPSU as a miniature Communist International. According to statements attributed to Timur Timofeev, the purpose of the institute is to give the CPSU "first hold" on the international communist movement. Timofeev is quoted to the effect that it is the idea of the CPSU that if everything else fails, the CPSU, through this institute, would have all its international contacts established so that this institute would speak with the authority of the old Comintern, of course, without the old Comintern's discipline.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

Relative to Timofeev's mother, Peggy Dennis, this source noted as follows. Dennis is now employed on the staff of the "Peoples World," a West Coast communist newspaper. It was recently learned by the source that Gus Hall, General Secretary of the Communist Party, USA (CP, USA), has discussed with Dennis and she has agreed in principle, that Dennis should go to Prague, Czechoslovakia, to work on the staff of the "World Marxist Review," theoretical organ of the international communist movement. While Hall and Dennis have reached agreement on this subject, Hall stated that no definite decision has been reached as to when and if Dennis will actually go to Prague, Czechoslovakia. While the desire of the CPSU for Dennis to be in a country close to the USSR could possibly indicate a hostage situation is being engineered in order to make sure of Timofeev's loyalty, this source does not place much credence in this hypothesis. This source believes rather that this desire is motivated by a concern that Dennis might possibly make statements or prepare articles not in keeping with the line of the CPSU and thus provide a source of embarrassment to Timofeev and the CPSU.

This source further advised that he can furnish no information bearing upon the relationship between the Information Department and the International Department or the relationship of the Information Department to the new Institute of The International Workers Movement.

Re Chicago airtel dated 5/16/66 and enclosed informant's statement captioned WORLD MARXIST REVIEW, OFFICIAL THEORETICAL ORGAN OF THE INTERNATIONAL COMMUNIST MOVEMENT AND DESIRE TO DEVOTE SEPTEMBER, 1966 ISSUE TO PROBLEMS AND CONDITIONS IN THE UNITED STATES.

The referenced communication noted that in 4/66 CG 5824-S* had reported that in 3/66 representatives of the "World Marxist Review", official theoretical organ of the international communist movement with headquarters in Prague, Czechoslovakia, had indicated that they would again like to publish in 1966 a large part of an edition which would deal totally with the problems and conditions in the United States and such articles should be written by leading CP, USA representatives. At that time it was suggested that 9/66 would be considered as the issue of the "World Marxist Review" which would contain the articles on United States problems. The topics which were suggested at the time by the "World Marxist Review" for such articles and their possible authors were as follows:

- 3) Upsurge of youth in the United States
- 4) Present development of civil rights struggle
- 5) Ideological trends in United States by HERBERT APTHEKER
- 6) New developments in labor unions in United States

The information received by CG 5824-S* was passed on to GUS HALL in 4/66 and HALL later assigned the following the tasks of writing articles on the requested subjects:

DANNY RUBIN to write on youth

JIM JACKSON to write on civil rights

GEORGE MEYERS to write on labor union developments

In addition, HALL noted at that time that ~~he~~ he, LUMER and APTHEKER would write the articles as suggested by the "World Marxist Review".

As of 10/66 the source noted that he had learned that the articles requested for the special issue of the "World Marxist Review" had not as of that time been completed, although a number had been. Those not completed

CG 134-46 Sub B

were the articles he, LUMER and JACKSON were to prepare. The remaining articles, however, had been completed and several were being carried to Prague to be turned over to the staff of the "World Marxist Review" by GEORGE MEYERS, who was to participate in a symposium sponsored by the "World Marxist Review" in Prague. Because of the failure of the CP, USA to submit all of the desired articles for the September issue, the special edition was not published. However, apparently during his visit to Prague, MEYERS discussed this matter with representatives of the "World Marxist Review" and he was provided with a new date for the special issue, 1/67.

In view of the new and later date for this special edition of the "World Marxist Review", HALL and LUMER went to work and completed their articles and drafts of these articles were turned over to CG 5824-S* on 1/4/67 when the latter was in New York City. He was instructed to carry these draft articles to Prague and furnish them to the Editorial Board of the "World Marxist Review".

In discussing this matter with LUMER it was learned from him that the only article which possibly may not have been completed was the one dealing with the subject of civil rights. JIM JACKSON, who had left the United States around New Year's, 1967, for Paris to attend a Congress of the French CP, was to be contacted in order to determine if he had sent such an article to the "World Marxist Review". If it was ascertained that he had not submitted his article it was going to be suggested that HENRY WINSTON be requested to edit his speech made to the 12/66 meeting of the National Committee on civil rights and then send it to the "World Marxist Review" for publication.

The above noted drafts of the articles prepared by HALL and LUMER which were entitled "THE FOE DOES NOT SUCCUMB TO SLOGANS" and "THE U.S. ECONOMY AND THE WAR IN VIETNAM", respectively, were turned over

CG 134-46 Sub B.

by CG 5824-S* to SA RICHARD W. HANSEN on 1/6/67. Xerox copies were made of these drafts and Xerox copies of each are being enclosed herewith for the Bureau and New York. One Xerox copy of each of these articles is being retained by the Chicago Office and is being made an exhibit in Chicago file 134-46 Sub B-1B.

Reurairtel 10/24/66 in captioned matter which enclosed letterhead memoranda, one of which was entitled "Harry Yaris, New 'Worker' Correspondent, Moscow, USSR."

The Bureau of Intelligence and Research, Department of State, has requested any available information explaining: (1) Yaris's position in the Polish Communist hierarchy, and (2) the reason for the necessity of mutual action by the Communist Parties of Poland and the Soviet Union to arrange his reassignment.

On the occasion of your next regular contact with CG 5824-S*, upon the informant's return to your division, obtain the requested information and submit this data to the Bureau in letterhead memorandum form.

WGS:dmk

(4) *dmk*

NOTE:

Harry Yaris was born 3/8/08 in Russia; entered the United States in 1914, and was active CP member. He was deported to Poland in 1954 after being tried for falsely claiming to be U.S. citizen when registering to vote in 1947. He is the brother of CPUSA national functionary Betty Gannett. Yaris recently became the Moscow correspondent of "The Worker," east coast communist newspaper. CG 5824-S*, who is personally acquainted with Yaris, noted that it was necessary for the CP of Poland to clear with the CP of the Soviet Union before Yaris could accept the position of Moscow correspondent. State Department has inquired as to why such action was necessary. CG 5824-S* is presently on Solo Mission 22. This inquiry will be taken up with informant upon his return which is expected to be in early February, 1967. State Department has been orally advised by Liaison that our sources are being contacted relative to State's inquiry.

ReBulet 11/30/66.

Relet pertained to the preparation of a paper by CG 5824-S* on informant's opinion concerning what the foreign policy of the United States should be toward the Soviet Union.

Follow this matter closely with CG 5824-S* upon informant's return to your Division at the conclusion of Solo Mission 22. Every effort must be made to have informant complete the paper as soon as possible.

WGS:dmk

NOTE:

CG 5824-S* was given this assignment during the latter part of 1966. However, due to informant's Solo Mission abroad, conferences with national Party leaders; attendance at Party functions, and other matters of equal importance, informant has not had an opportunity to complete this assignment. On 1/8/67, informant left on Solo Mission 22 and is not expected to return until late January, 1967. The purpose of this letter is to again impress upon the Chicago Office the importance of the paper and the need to follow this matter closely.

Re Chicago airtel dated 10/28/66, and enclosed informant's statement captioned "SUMMARY INFORMATION CONCERNING VISIT OF GUS HALL, GENERAL SECRETARY, COMMUNIST PARTY, USA, AND COMMUNIST PARTY, USA DELEGATION TO THE SOCIALIST REPUBLIC OF ROMANIA, OCTOBER 8 - 11, 1966."

In connection with the above noted visit to Romania 10/8-11/66, the Communist Party (CP) of Romania covered many of GUS HALL's activities through official photographs which were subsequently turned over to CG 5824-S* on the delegation's departure from the country. These photographs were to be returned to the United States and turned over to HALL as a record of his visit to Romania. Prior, however, to CG 5824-S* providing these photographs to HALL, the source made them available to the Chicago Office and copies were made thereof.

SUBJECT: SOLO
INTERNAL SECURITY - COMMUNIST

Special Agent in Charge Marlin Johnson of Chicago, called on 1/4/67, and advised that CG 5824-S* was preparing for departure on Solo Mission 22 to the Soviet Union, where informant will discuss with Soviet leaders the amount of the subsidy that will be furnished to the Communist Party, USA, during 1967. Johnson requested authority to make funds available to the informant in connection with this Mission.

Johnson advised that it would be necessary to advance CG 5824-S* the sum of \$1,689 to cover first-class air travel abroad and return, plus meals, hotels, baggage, and other incidental expenses. Informant will make a detailed accounting when he returns from the 22nd Solo Mission and will return funds not expended. The Party will reimburse informant for a portion of funds, probably about \$800, which will be returned to Chicago's confidential fund.

Johnson also requested authority to advance to the informant, prior to his departure from Chicago, the sum of \$1,500 to cover payments for services.

The requests made by Chicago are similar to those which have been made in all prior Solo missions and are necessary for the secure departure of the informant on this type of dangerous mission. It is believed that Chicago's requests in this connection are reasonable and should be approved.

ACTION:

In view of the importance and urgency of this matter, Special Agent in Charge Johnson was authorized to advance \$1,689 to CG 5824-S* for the purpose indicated and also to advance informant payments for services amounting to \$1,500.

During the visit to Czechoslovakia noted in the above referenced airtel and informant's statement, the Communist Party (CP), USA delegation on September 16, 1966, was provided with a tour of Tesla National Enterprise, Hloubetin, Czechoslovakia, which is a facility engaged in the production of radio broadcasting and electronic equipment. (Specific information concerning this visit set forth on Page 2 of referenced informant's statement.) In connection with this activity, the plant Party newspaper, "Vysilac", a weekly publication, recorded by photograph the highlights of this visit. Subsequently, CG 5824-S* was provided with a set of these photographs, which he was to present to GUS HALL on the latter's return to the United States. Prior, however, to turning these photographs over to HALL, the source made them available to the Chicago Office and copies were made thereof.

Enclosed herewith for the Bureau is one set of the above noted photographs, 16 in number, and one set is being retained by the Chicago Office.

Re Chicago airtel dated 10/28/66 and enclosed informant's statement captioned "SUMMARY OF INFORMATION CONCERNING VISIT OF GUS HALL, GENERAL SECRETARY, COMMUNIST PARTY, USA, AND COMMUNIST PARTY, USA DELEGATION TO THE GERMAN DEMOCRATIC REPUBLIC, SEPTEMBER 5 - 9, 1966."

In connection with the above visit to the German Democratic Republic (GDR) September 5 - 9, 1966, the Socialist Unity Party of Germany (SUPG) covered many of HALL's activities by official photographs which were subsequently turned over to CG 5824-S* on the delegation's departure from that country. These photographs were to be returned to the United States and turned over to HALL as a record of his visit. Prior, however, to providing these photographs to HALL, the source made them available to the Chicago Office and copies were made thereof.

Enclosed herewith for the Bureau is one set of these photographs, numbering 19, and one set is being retained by the Chicago Office.

In regard to the above photographs, the Chicago Office desires to point out that utmost caution must be utilized in connection with any possible contemplated use of them since only CG 5824-S* and GUS HALL are known to possess them at this time. None of the enclosed photographs are known to have appeared in any type of public source material and, therefore, the disclosure of the possession of them could seriously jeopardize the informant.

BRIEFING BY GUS HALL, GENERAL
SECRETARY, COMMUNIST PARTY, USA,
RELATIVE TO DISCUSSIONS WITH
COMMUNIST PARTY OF THE SOVIET UNION
LEADERS SCHEDULED JANUARY, 1967

During the period of December 29, 1966 through January 4, 1967, a number of private discussions were held with Gus Hall, General Secretary, Communist Party (CP), USA. A portion of each of these discussions was devoted to matters regarding a trip to the Soviet Union then being insisted upon by Hall. Hall was demanding that such a trip be made at this time in order that discussions be carried on with leading representatives of the CP of the Soviet Union (CPSU) like M. A. Suslov, a member of the Secretariat, CPSU, and other Party leaders. The purpose of these discussions was to ascertain if a decision had been made by the CPSU on the matter of financial aid to the CP, USA for the year 1967 and how much aid can be expected by the Party and the reasons why the CP, USA had not been advised on this matter to date. Hall was adamant that the amount of aid promised by the CPSU should not be less than the amount the Party received in 1966 and if the amount was less than that amount, he instructed that "a battle be fought all the way to the top" to get as much aid in 1967 and preferably more. While Hall offered no real specific assistance to support or defend the CP, USA's request for financial assistance, he demanded that this matter be handled immediately and resolved.

Hall did advise that the Russians should be told that one of the reasons the Party needed as much money as they had received in 1966 was that he was then in the last stages of negotiating for a new national Party headquarters building. He wanted it made known that he was personally and seriously involved in negotiations on this matter. He pointed out that the Russians should be told that the Party's present building is inadequate and too small. If a daily newspaper is to be published by the Party it would need such a new building and the additional space. In regard to Hall's remarks in negotiating for a

ENCLOSURE

100-428071-10009

new Party headquarters, it is unknown whether this is factual information or merely another basis given by Hall to justify his financial request.

When Hall was asked as to the authority and position that could be argued from in meetings with the CPSU leaders in regard to financial subsidies, Hall stated the following: "You are going as a Secretary of the International Affairs Commission. You will go and speak for the Party as always and do so as a member of all our leading bodies, including the NEC and NC."

Hall also noted that Jim Jackson, after the conclusion of the CP of France Congress scheduled end January 8, 1967, intends to proceed on to Hanoi. While he had talked to Jackson on this matter, Jackson wanted no help whatsoever in making arrangements to go to Hanoi. Hall, however, insisted that Jackson be given a hand in going to Hanoi whether that individual likes it or not. Jackson had argued with Hall that since people like Harrison Salisbury of the "New York Times" had been admitted to North Vietnam, the Vietnamese could hardly keep him out. While Jackson may be able to get into Hanoi, Hall wants both the Russians and Vietnamese comrades talked to and requested to provide Jackson assistance. By getting the assistance of these comrades, Jackson will at least save the expense of many thousands of dollars in transportation costs which he would have to pay on his own if he attempted to make his own arrangements.

Hall also wants the matter discussed with representatives of the CPSU regarding the number of persons who will be invited from the CP, USA to visit the Soviet Union in 1967. Since no such "quota" for visitors had been received so far, Hall wanted it emphasized that the Party must know this figure in order that it can make plans for its delegations during the year, a particularly important year in view of the 50th anniversary of the October Revolution.

Hall also wanted to know whether the CPSU was making any plans regarding a possible international

conference of Communist and Workers Parties. He wanted the Russians asked whether it might be feasible to hold such a conference in conjunction with their plans to celebrate the 50th anniversary.

Hall also remarked that he had received a request from William Weinstone and his wife to travel abroad and to visit the Soviet Union. The Russians should be felt out as to how they would react to such a visit on the part of the Weinstones.

In connection with his recent trip abroad, Hall received many gifts while visiting in the various socialist countries. Much of the material he was provided with has not yet been delivered in the United States although those countries promised immediate delivery through either their representatives at the United Nations or through their Embassies in Washington. Hall wants inquiries made of the various Parties in the socialist countries as to what might have happened to this material and as to when he might expect delivery.

Hall also noted that in his confidential discussions with CPSU representatives which were held in Moscow in regard to apparatus work, the Russians had suggested the possibility of the purchase of a laundry business for use in connection with drops and also as a safer method for delivering funds. At the time Hall agreed that this was a good idea and promised to go to work on this matter. Hall now wants the Russians informed that while he has someone in mind to operate such a business, he believes it would be best that the Russians themselves select the area and the location for such business. Hall feels that the responsibility for the site selection should be on the Russians and this way the Russians could not later throw blame on the CP, USA if something went wrong with the location selected.

Central Intelligence Agency, by letter of 1/12/67 (attached) regarding the North and South American Section, International Department, Central Committee, Communist Party of the Soviet Union, made reference to our letter of 12/1/66 concerning this matter. Our letter noted that the mailing address, "Professor Sirov, Post Office Box 341, Moscow, USSR" was being used for contacts between the Communist Party, USA, and the Soviet International Department. Central Intelligence Agency advised that its records indicated the use of the address of "Professor Sirinov" for this purpose and requested our comments on whether the name "Sirov" should not be "Sirinov." The Director noted: "What about this?"

Following the return of our Solo Operation informant, CG 5824-S*, from the Soviet Union in October, 1966, we disseminated considerable data to the Central Intelligence Agency furnished by CG 5824-S* concerning the Soviet International Department, including the fact that the address "Professor Sirov, Post Office Box 341, Moscow, USSR," was being utilized for contacts between the Communist Party, USA, and the Soviet International Department.

In order to answer the current inquiry by the Central Intelligence Agency as to whether the name "Professor Sirov" should not be "Professor Sirinov," it will be necessary to recontact CG 5824-S*, who is currently on Solo Mission 22 in the Soviet Union where informant is meeting with Soviet leaders to determine the amount of the subsidy that will be furnished to the Communist Party, USA, during 1967.

On 1/19/67, there was received at a New York City drop a letter dated January 17--apparently from the Canadian CP--containing therein a sealed envelope addressed to "CARL WINTER" (Editor of the "Worker"). The letter, within, written by BEA JOHNSON, CPUSA liaison with the Cuban CP, dated January 4, 1967, a Xerox copy of the contents thereof enclosed herewith, contains in the first paragraph/statement to the effect that certain material was being furnished to CARL WINTER by "BRUCE." It is believed that said "BRUCE" is BRUCE MAGNUSON, Canadian CP functionary, who was recently in Cuba.

January 4, 1967

Dear Carl:

I am sending some material with Bruce, regarding recent developments here.

1. Is a report of a three day conference on philosophy.
2. Two articles that appeared in the Mexican magazine "Sucesos" of December 10 and 17th opening a scurrilous attack on the Venezuelan CP. The writer has been to Cuba many times and the owner, ~~xxx~~ a millionaire is at present an honored guest of the government here. The articles have been distributed to the party leaders in all the provinces. Fidel, without repeating the attacks, takes a definite official position in support of Douglas Bravo, the expelled pol. bureau member of the VCP, who is now the guerrilla chief. Fidel said that he saved the Venezuelan Revolution.

D.B.
I am also sending you copies of the statement of the Mexican Party and the reply of the CPV. There is strong feeling on the matter among the other parties also. We expect that statements will be made all around.

There is also a proposal coming from the Mexican and Colombian Parties for a meeting of all LA parties to discuss the new events, particularly since Cuba is training and preparing to send people to begin guerrilla actions over the heads of the Parties. The manner in which every effort has been made to make Che a hero points to such preparations. He also said that more concrete things will be heard about Che in the near future.

big I have also been told that the ~~xxx~~ reason for the gentle tone of the fellow is due to opposition, especially from his brother, who is scheduled to be replaced as Minister of the Armed Forces.

Many transformations have taken place here, and the people are growing politically. It is just unfortunate that for the past year they have been brainwashed with so much ~~xxxxx~~ idealistic rubbish, such false unrealistic concepts of the LA Revolution, that one can say there is a definite retrogression. Of course the basic problem is that the overwhelming petty bourgeois leadership has not grown as Marxists. They have embarked on the socialist revolution with impatience, vanguardism and a wrong conception of the epoch. In that respect their conception is closer to the Chinese idea that this is the era of national liberation, the third world, etc. In LA they ignore the Parties, the workingclass and the need for a mass movement. They want to force national liberation from the outside.

Under these conditions there is much discussion among our friends as to how to ~~xxxxxx~~ conduct our relations. It is difficult, but I feel strongly that we must get closer and try to make them understand our policies without assuming to impose on them. In this respect "I have had two discussions ~~xx~~ on the Negro question, which they don't understand. They think that "defensive violence", proposed by Garmichel is the only tactic to be followed. The other is the evaluation of the elections. They only saw the gains of the rightists. In this respect I have been able to give them material and hope to have influenced the next issue of Cuba Socialista for a more realistic evaluation. Of course they get all the papers as soon as they come and I am always talking to them, but Granma does not ~~xxx~~ print what I write. They have a frozen conception on everything- its arms or nothing.

Do you get the Mexican magazines, if so please inform me, because it is difficult for me to get extra copies to send you. Are you in touch with the CPM about their work with the other parties? Why doesn't the Latin American commission keep in touch with me? Joe promised this would be the case when he left last year, but he even forgot to send me copies of *Diagog*. There are big things shaping up in this connected and we must find a way to talk to each other more frequently. You must use Prague- Canada is bad unless someone is coming personally and Mexico is worse. Listen, I want you to tell Gus, that I can do a job, but I must be sure that we agree and act together. This way it is most unsatisfactory.

Am going to the hospital for a small operation next week and will not be able to write much for the paper for a few weeks, I therefore want to remind you that I have done some pieces in the Province of Pinar del Rio which you can use: the copper mine, and the agricultural development. An old timer came here and told me that you people don't want so much about sugar, but about how the people feel? I don't know what it means and neither did he. It was a chance to send me a decent letter.

I need political affairs- have not seen anything new in literature since September.

Am in close touch with the publishers and we would like to have some new books. I would like "They shall not pass", by Pasionaria. A copy of Mission to Hanoi for the Vietnamese Ambassador here. Existentialism and Alienation in American literature by Finkelstein. I should like to have the latest pamphlets of which I have no list.

My best regards to all.

Beatrice

Bea

Note the armament and uniforms of the guerrillas - it formidable.

In mid-October a 3-day conference of the Philosophy Department of the University of Havana was held. The Philosophy Department has the responsibility of supplying instructors and developing courses for all schools of the University as well as for other schools. Additionally, it has the responsibility of executing special tasks and projects which the Government and/or Party may request.

The 3-day conference had as its objectives, the evaluation of past programs as well as the formation, presentation and change in the program for the academic year 1966-67.

The following are perhaps the most important observations and points made during this conference:

1. There was absolute freedom for all participants to express their views although how participants voted was carefully noted.
2. The validity of dialectics was challenged and historical materialism was characterized as having "little or no meaning".
3. Supporters of the Soviet Union and the Eastern Socialist countries were alluded to as "dogmatists" who hid behind "historical materialism" to impede revolution, particularly in Latin America.
4. The Communist Parties of Venezuela, Argentina and Colombia were attacked by name and the other Communist Parties of Latin America were equally attacked as "betrayers of the Revolution in Latin America", "pseudo-revolutionaries" and as "followers of the ideology of Moscow who hide behind historical materialism to justify their non-revolutionary attitude.
5. At the present time the majority group opposed to dialectics and historical materialism could offer no cohesive exposition or view of what they would offer instead. When it was pointed out that they were eliminating the basis of Marxism without substituting anything concrete, the retort was that dialectics and historical materialism as "used" by certain "dogmatists" (followers of the Soviet Union, members and sympathizers of the old PSP) is no longer a basis of present-day real Marxism.
6. A move to eliminate historical materialism as a subject matter from the basic course in Philosophy and substitute "Theory of Society" in its place was defeated by a very small margin.
7. It is necessary to develop a Marxist Philosophy valid for the current era. Castroism is the true Marxism of the present time. Anyone who opposes Fidel's thinking is guilty of impeding the revolution in Latin America and at best is nothing more than a pseudo-revolutionary playing into imperialism's hands.

Signed by a participant.

INTERNAL SECURITY - COMMUNIST

This is to advise you of a situation where the Securities and Exchange Commission is looking into the private stock transactions of our Solo informants.

CG 5824-S*, his wife, CG 6653-S, and NY 694-S* have invested a considerable amount of their savings in stocks. CG 6653-S has advised that her stockbroker, [redacted] of the investment firm of Bear, Stearns, and Company, Chicago, Illinois, had been requested by the Securities and Exchange Commission to come to New York City on 1/13/67 to discuss stock transaction through his firm by CG 5824-S*, CG 6653-S, and NY 694-S*. [redacted] did not know the nature of the inquiry but indicated that the Securities and Exchange Commission has been endeavoring to identify all individuals dealing in stock transactions involving Pentron Electronics and Hercules Galion, both of which are traded on the American Stock Exchange.

CG 6653-S recalled that in April, 1966, she was questioned by the Securities and Exchange Commission concerning her purchases and sales of Pentron Electronic stock. Specifically, she was asked why she bought this stock and who had advised her to do so. After answering these questions, she was asked if she would be available for testimony before a Grand Jury. She replied that she would be available, and was of the opinion that this had ended the matter. She now feels that the Securities and Exchange Commission is continuing its investigation of Pentron Electronics.

CG 6653-S's brother, Irving Projensky, Chairman of the Board of the First National Bank of Lincolnwood, Illinois, expressed the opinion that the Securities and Exchange Commission's investigation is directed toward proving a conspiracy of some sort by an individual named [redacted]

CG 6653-S sees no possibility that she or CG 5824-S* or NY 694-S* are involved in any wrongdoing insofar as their dealings in Pentron and Hercules Galion stocks are concerned.

OBSERVATIONS:

In view of the status of these informants in the extremely delicate Solo Operation, any possibility of public disclosure concerning their financial transactions is of concern to us. This is particularly true if these informants are called to testify before a Grand Jury. We will have a better idea of what this matter is all about when Stockbroker [redacted] returns from New York and gives CG 6653-S the benefit of his discussions with the Securities and Exchange Commission.

According to [redacted] he does not know the nature of the inquiry. He did advise, however, that the name of the informants had been obtained by the United States Attorney from a check of records to identify all individuals "in a cross of," i.e. dealing in both, Pentron Electronics and Hercules Galion Products, Incorporated, both stocks being traded on the American Stock Exchange. It is not clear which records were checked but it is believed [redacted] was referring to a check of the records of the New York Office of Bear, Stearns and Company. [redacted] then stated that as a result of the check, in addition to these informants, the United States Attorney was interested in the transactions engaged in by the following additional individuals:

NY 694-S*: [redacted] Former
[redacted] of the First National
Bank of Lincolnwood, Illinois;
and [redacted] a friend of
PROJANSKY.

Going back in her recollections on this matter, CG 6653-S recalled that in about 4/66 she returned to Chicago from a trip out of the city and learned that she had received a request to telephone collect to a Commissioner of the SEC in Washington, D.C., whose name she no longer recalls. She did as requested and was questioned concerning purchases and sales of Pentron, why she had bought and sold this stock, who had advised her to buy Pentron, etc. After answering these questions, she was asked if she would be available to testify before a Grand Jury if it became necessary, to which she replied that she had told all she knew about the subject and would be available if requested to appear before a Grand Jury.

So far as CG 6653-S knew, this ended the matter and she thought that the Pentron investigation was all over by this time, and since she was not recontacted the whole thing was a dead issue. She did recall further that in early 11/66 she learned that a request had been made at the First National Bank of Lincolnwood for a record of all these informants' loans and stock transactions during a certain period. [redacted] for the bank, had prepared and furnished such a record and in view of a difference of opinion as to the amounts of Hercules Galion stock which had been purchased, CG 6653-S then prepared a list from her own records for [redacted] in order to resolve these differences. However, these two matters had not been thought by her to be connected. CG 6653-S thought this later request was concerned with some shady transactions by an officer of the bank, since fired, which PROJANSKY had been trying to straighten out to the satisfaction of the bank examiners. That matter had all been cleared up some time ago.

Later on 1/11/67, CG 6653-S attempted to contact [redacted] to determine exactly who had requested the record from the bank of their loans and stock purchases. However, [redacted] was out of town and she was unable to contact him.

CG 6653-S also contacted another of her brokers named [redacted] at Bache and Company, Incorporated, 140 South Dearborn Street, Chicago, Illinois, through whom she had handled extensive transactions in Hercules Galion. [redacted] advised her that he had received no inquiry from the SEC or anyone else concerning any of the informants' stock transactions.

CG 6653-S then contacted her brother, IRVING PROJANSKY, to determine whether he could shed any light on the mystery of what this investigation is all about. According to PROJANSKY, this investigation is still in the hands of the SEC, which is gathering information preparatory to presentation to the Grand Jury in New York.

~~CONFIDENTIAL~~

CG 134-46

He does not believe that it has been presented yet to the Grand Jury or that any indictments had been returned. PROJANSKY is positive that [redacted] is an attorney for the SEC rather than from the office of the United States Attorney in New York. Furthermore, PROJANSKY stated that the record of the informants' loans and stock purchases requested from the bank are involved in the same situation. It is PROJANSKY's opinion that this investigation by SEC is directed toward proving a conspiracy of some sort on the part of an individual by the name of [redacted] (Ph). He is an individual known to PROJANSKY and CG 6653-S who was also dealing in Pentron and Hercules Galion. CG 6653-S had purchased some Pentron stock from [redacted] and when she wished to sell it, [redacted] had referred her to [redacted] at Bear, Stearns and Company, who would probably have more success in selling it than he. PROJANSKY voiced the opinion that no inquiry had been made of Bache and Company concerning the informants' dealings because the investigation was confined to Bear, Stearns, which was the brokerage used by [redacted]. The name of NY 694-S* had become involved because CG 6653-S sold some of his Pentron stock for him through Bear, Stearns.

CG 6653-S has indicated that she sees no possibility that she or CG 5824-S* or NY 694-S* are involved in any wrongdoing insofar as their dealings in Pentron and Hercules Galion are concerned. Her acquaintance with [redacted] is confined to this one business transaction and she knows nothing of his other dealings. He is apparently better known to PROJANSKY, who is of the opinion that the SEC investigation is directed toward proving a case against [redacted]. We will have a better idea of what this investigation is all about when [redacted] returns from his interview on 1/13/67 with [redacted]. [redacted] indicated to CG 6653-S that he will find out what this is all about from [redacted] and will advise her when he returns.

CG 134-46

Particularly in view of the current status of CG 5824-S*, any possibility of public disclosures concerning financial transactions of this informant at this time is of concern to us. Furthermore, the involvement of both CG 5824-S* and NY 694-S* in so complicated an investigation by SEC and/or a Grand Jury in New York City, regardless of the current status of CG 5824-S*, is of some concern. However, being dependent upon the conjecture of IRVING PROJANSKY and lacking specific information as to the nature of the inquiry, we do not feel that we can make a cogent observation or recommendation at this time. By 1/16/67 we expect that CG 6653-S will have obtained from

[redacted] the benefit of his discussions with [redacted] and thus we may have some positive idea of what this investigation is all about. At that time we will furnish this additional information to the Bureau and New York, together with our observations and recommendations. The above information is being furnished to the Bureau at this time in order that the Bureau will be in possession of all the facts in a timely manner.
